

HIGH SCHOOL FUNDAMENTAL MOVEMENT SKILLS

PROCESSES AND TERMS

Thank you for your interest in providing students with the opportunity to engage in the National Coaching Certification Program (NCCP) course Fundamental Movement Skills (FMS). viaSport and the Coaching Association of Canada (CAC) are happy to provide the resources and opportunity for teachers to deliver the FMS module to students 14-18 years old in a high school setting.

In offering FMS to students we aim to:

- Introduce students to the NCCP and the opportunities within coaching
- Educate students on how to break down a range of physical skills
- Provide students with a qualification that can assist them in securing volunteer or employment positions.

ELIGIBILITY

1. Teacher delivering the FMS module must have a degree in Kinesiology (or related field).
2. The high school must be located within B.C.
3. The students participating are in grades 9-12, and are a minimum 14 years old.

PROCESS TO DELIVER FMS IN A HIGH SCHOOL SETTING

1. Submit your school application form, outlining your school contact info, how often you intend on delivering the FMS material, and approximately how many students will be engaging.
2. Upon viaSport approval (within two weeks of the application being received), you will be provided with the materials necessary to deliver the course.
3. Provide the students with the viaSport/NCCP handout, and ask students to [sign up](#) for an account with the Coaching Association of Canada. The student must provide their NCCP number to the school in order to receive credit for the course. The school needs NCCP numbers for all students in order to process the course. The school and viaSport will be unable to retroactively provide credit for students who later sign up for an account.
4. Schools delivering to more than 30 students per year will be asked to identify an administrative contact who will be responsible for processing the course in the CAC database, the Locker. Schools will be asked to complete one (or more) Locker events per year, leaving the LEADER section blank, and listing the teachers who delivered the course in the NOTES section of the Locker event.
5. Schools with fewer than 30 students may submit an excel file to viaSport with the student's name and NCCP number, and the name of the teacher who led the group.
6. viaSport will invoice the school \$10.00 for each student granted credit. Note that community participation in FMS typically costs \$60.00. The invoice will be due 30 days from issue. The course will not be approved until payment has been received.

7. Locker transcripts are typically updated within two business days from when viaSport has approved the event. Please note that printed certificates are not issued. Students may print off their Locker transcripts.

TERMS

- Only one application per school will be accepted.
- Electronic copies of materials must be obtained by viaSport directly. Host organizations may not share electronic files with individuals outside of their organizations or those participating in the courses.
- Promotional materials may not be altered, or used to promote activities outside of multi-sport NCCP.
- Schools must provide the viaSport NCCP Student Handout to each student participating in programs.
- All Locker events (or excel files) must be received by June 1 of each school year.
- When there has been a change in contact information for viaSport, we ask schools to submit a new application for tracking purposes. Schools will be contacted each September to update the names and contact information for the teachers directly delivering the content.
- Schools may request mentorship from a viaSport Master Coach Developer, at their own expense. Should a teacher wish to become a viaSport Learning Facilitator, they are required to apply with viaSport and complete the full training in the Coach Developer Pathway.
