

MULTI-SPORT NCCP INTEGRATION: POST-SECONDARY INSTITUTION

SCHOOL INFORMATION

Thank you for your interest in providing students with the opportunity to engage in the National Coaching Certification Program (NCCP) multi-sport courses. viaSport and the Coaching Association of Canada (CAC) are happy to provide the resources and opportunity for post-secondary institutions to deliver NCCP content, or provide students with the qualifications through the participation and successful completion of undergraduate courses.

In offering multi-sport NCCP qualifications to students we aim to:

- Introduce students to the NCCP and the opportunities within coaching
- Provide students with a qualification that can assist them in securing volunteer or employment positions
- Build relationships with B.C. post-secondary institutions and promote the value of academic education for coaches, and the value of the NCCP for students

ELIGIBILITY

1. The PSI must be a recognized institution located within B.C., delivering a kinesiology (or related) program.
2. Courses cannot be delivered through continuing education departments in this program, however they may [apply to be a NCCP Host Organization](#).

OPTIONS FOR INCORPORATING NCCP INTO PSI PROGRAMS

Option 1: Delivery using a qualified viaSport LF

Post-Secondary Institution (PSI) contracts a qualified viaSport Learning Facilitator (LF), or use a Professor who is a qualified viaSport LF, to deliver content to the students

- The PSI will follow the Host Organization Terms and Processes provided by viaSport within the dropbox folder.
- The LF or the school processes the Locker event, with the students signing up for their own Locker account with the CAC, providing it to the school (as the host).

Option 2: PSI Instructor delivery using NCCP materials

PSI Professors use the NCCP materials and general delivery format within their course settings only (no public/community delivery), and students use the NCCP workbooks and reference materials. PSIs would be required to:

- Agree to the terms around delivering multi-sport NCCP content
- Identify an administrative contact at the PSI, who will complete Locker training with CAC to process the courses
- Provide professors/instructors with the standard teaching resources, as developed by CAC
- Provide students with materials ordered through viaSport
- Inform viaSport prior to the start of each semester information about which courses will be integrated (using the template provided)

Option 3: PSI seeks content approval from CAC

The PSI reviews the NCCP outcomes, criteria and module learning objectives, and proves their curriculum meets NCCP standards through an application and approval process developed, managed, and granted by CAC. PSIs would be required to:

- Have a signed MOU in place with the CAC and viaSport
- Identify an administrative contact at the PSI, who will complete Locker training with CAC to process the courses
- Provide the completed template (as per CAC) to CAC, as well as payment for review
- Inform viaSport prior to the start of each semester, information about which courses will be integrated (using the template provided)

COSTS

viaSport will invoice the school \$10.00 for each student granted credit. Note that community participation in programs typically costs \$60-\$250 per course. The invoice will be due 30 days from issue. The course will not be approved until payment has been received.

A fee (amount TBD by CAC) will be collected by CAC for any requests for content recognition, outlined in the Integrated option.

APPLICATION

To begin delivering NCCP in your school, please submit an [application to viaSport here](#). Those who indicate they would like to proceed with content recognition will have their application forwarded to CAC.
